166. NEW FOREST NON-NATIVE PLANTS PROJECT

Catherine Chatters of the Hampshire & Isle of Wight Wildlife Trust gave a presentation on this topic.

A special 3-year project was being led by the Trust to combat numerous non-native plants in the New Forest. Particular examples were Japanese knotweed, Himalayan balsam and Giant hogweed which, if left unchecked, could devastate large areas and cause problems for farmers and fisherman and for the countryside generally. Many species had been introduced to the UK in the 19th century as ornamental plants but were now threatening native wildflowers.

In this area, the Trust would be concentrating on pulling up Himalayan balsam, especially along the Cadnam river. Volunteers were needed to help on working parties during the summer. The Clerk agreed to supply contact details for the local Scouts and Guides. Ms Chatters would provide the Council with some text for an article in Stanleys Own and on the website.

168. TOWN & PARISHES WORKING TOGETHER MEETING

Members received details of a meeting at Lyndhurst Community Centre on 25 March 2010 to discuss working relationships with the District Council and the National Park Authority. The meeting would also provide an opportunity to discuss joint working arrangements between parishes and the service provided by NFALC and HALC.

Cllr James could possibly attend and the Clerk agreed to enquire about Cllr Moriarty.

169. FINANCE MATTERS

Payments: The following expenditure was authorised:

738 TLC-Online (Web site maintenance – January) £30.00

The Clerk also suggested that quarterly payments for website maintenance would reduce administration for both parties. Agreed, Clerk to suggest to TLC-Online.

170. OTHER MATTERS

The Clerk reported the following updates on highway matters:

- Chingham Road/New Inn Road – no surface dressing planned. Further drainage investigations could commence in new financial year but resources were currently being prioritised on carriageway repairs
- Bus stop by “Bushfriars”, Winsor Road – Surveyor to arrange small hardstanding
- Road edge trials – mixed results from trials; road edge repairs using a resin material had withstood over-running traffic but traffic speeds had increased; repairs were therefore being restricted to hoggin which deteriorated in wet weather. Road edges in Furzley Road to be repaired with hoggin as soon as possible.
- Shepherds Road/Pundle Green drainage – the site had been submitted for funding in 2010/11 but had not been successful.
- Pollards Moor Road footway – vegetation and undergrowth had been cut back. Some footway patching required near the saw mill.
