

COPYTHORNE PARISH COUNCIL – MEETING 12th MAY 2020

ITEM 14 – COUNCILLORS REPORTS

REPORT FROM John Goodwin

1. As an update to the identified road and drainage faults/problems in the section of Winsor Road in the region of The Brickyard I attach photographs of the current situation. I would imagine everyone is very relieved that the gully has been repaired and the warning cones have now been removed after approximately 2 months. However, there is still work outstanding in this area.
2. As it may be some time before “face to face” monthly meetings are able to be held can the Council please consider the recommencement of agenda items, under Part B – Special Reports of our rolling forward planning calendar during our ongoing virtual meetings. Two items that I would like to see added are:
 - Document retention Policy and
 - Addition of archived/paper minutes of the Council before 2010 onto our website.
 - The impact of the adoption of the NFDC Local Plan on the Parish.

11th May 2020

Winsor Road - Update on Gully/Carriageway reported “problems”

BEFORE

AFTER

Has the blockage of the gully being resolved?

Is the nearby gully behind the footpath going to be repaired?

Is the nearby collapsed road edging, opposite The Brickyard, going to be repaired?
