

COPYTHORNE PARISH COUNCIL MEETING – JUNE 9TH 2020

ITEM No: 9 – Lengthsman Scheme - Tasks for June 2020

Background

At our last meeting on May 12th, I proposed the following:-

Proposal

That, in accordance with the Lengthsman Scheme Procedure adopted by the Council on September 11th 2018 (copy attached as Appendix 3) we task the Lengthsman with the following:-

1. Noticeboards – Cut back vegetation to enable clear view of all seven notice boards
2. Brockishill Road/Forest entry (by cattle grid) - Cut back vegetation to enable painting of metal barrier both sides. Then paint, in white, both metal barriers
3. Shepherds Road culvert - Cut back vegetation to enable painting of metal barrier both sides. Then paint, in white, both metal barriers

Council agreed with this proposal subject to obtaining quotes for work to be carried out on all of the metal barriers making watercourses and ditches under or alongside the highway within the Parish.

Current position

Details of all of the metal barriers were sent to the Lengthsman (attached as Appendix 1). In accordance with the Lengthsman Scheme Procedure mentioned above the Lengthsman has provided estimated “man hour” and additional cost quotations (attached as Appendix 2).

Proposal

1. The cost of clearing away vegetation from all seven of the noticeboards is £80
2. The cost of clearing away vegetation and painting all fifteen metal barriers is £920

Our available budget for 2020/21 is £2000.

David Rigby

Parish Clerk/RFO

June 1st 2020

LOCATION OF "WHITE RAILINGS" OVER WATERCOURSES

Shepherds Rd/Chinham Rd – 9 paces on both sides
