

COPYTHORNE PARISH COUNCL MEETING – MARCH 14th 2023

Item 9 - To receive a Climate Emergency activity updating report

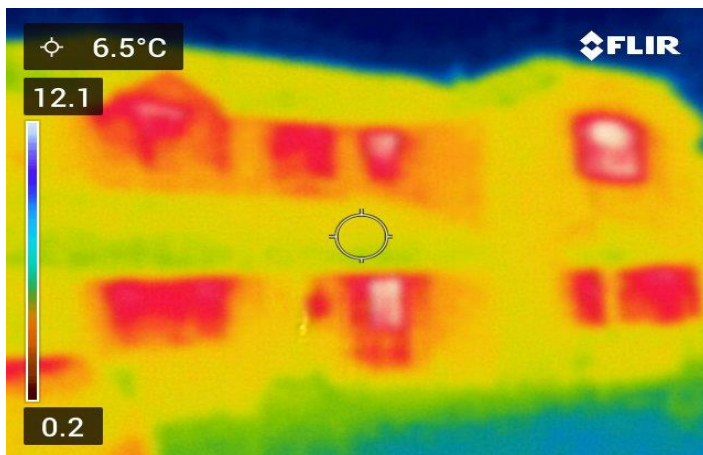

Greening Copythorne

Thermal Imaging

A couple of weeks ago we were very fortunate to have been allowed to borrow a thermal camera from Terena Plowright the leader of the Greening Campaign. We had the camera for 12 days and managed to visit 35 properties and take 436 images.

This was a fantastic opportunity and everyone seemed very interested in the results. All the images have been sent to the owners of the properties.

Our next event will be an online event specifically for our community with some experts who can give advice. This would cover what we can do to improve the energy with simple changes, and information about grants.
