

25/01004 - Land to the east of New Inn Road, Bartley

Copythorne Parish Council Comment

In connection with the above application, I have been authorised - by the five members of the Parish Council eligible to consider the application - to submit the following comment:-

"Having considered the non-material amendment application put forward, the Parish Council - on the basis that the requested amendments (including a reduction in roof heights of some of the buildings) are intended to benefit the occupants of and neighbours to the site - has no objection to the application.

This position is taken on the understanding that all 20 conditions attaching to planning application 22/00498 (in particular condition 4 relating to slab levels and condition 17 relating to a detailed surface water drainage scheme) remain in place unaltered other than to change the plans/drawing numbers to reflect those submitted for this NMA application."

Please can I ask you to add a copy of this e-mail as a response on the NFNPA planning portal.

Regards David Rigby

Clerk/R.F.O to Copythorne Parish Council
