

5th January 2026

Ref: AH0012/New Inn Road, Bartley

Dear Neighbours,

Re: Rural Exception Housing at New Inn Road, Bartley, Hampshire – English Rural Housing Assoc.

We are pleased to confirm that Amiri Homes will be working in conjunction with English Rural Housing Association to build ten new homes at the above location.

Minor preparatory works are now underway, with the erection of tree protection fencing and safe enclosure of the site boundaries.

Following on, from the 7th January 2026 we will be undertaking works to construct the temporary site entrance to the South West boundary with New Inn Road. As you may well have seen whilst driving along New Inn Road, we currently have road space booked with Hampshire County Council between the 7th January to the 16th January.

As the site progresses, we will be providing regular updates on progress and key stages of the build programme via the Parish Council, but expect to be making progress with the commencement of the principle works in the coming weeks.

Our Site Manager Dave Brett will be based on site every day to manage the works, his contact details are listed below and will be provided at the site entrance once we have set up our site offices. If you have any concerns over the course of the project please don't hesitate to contact him.

Dave Brett
